EDUCATION

Veer Narmad South Gujarat University

2023 – 2026

Bachelor of Computer Applications (BCA) CGPA:

7.0

K&M.P; Science High School

2021 – 2022

11th – 12th, Science Stream

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, Python, C++

Frameworks / Libraries: React.js, Node.js, Express.js, Tailwind CSS, REST API

Databases: MongoDB, SQLite, MySQL

Concepts: MVC Architecture, JWT Authentication, RESTful APIs, CRUD Operations, Responsive Design

Developer Tools: GitHub, Git, VS Code, Cursor, Antigravity, Vercel

PROJECTS

MERN Social Media Platform

React.js, Node.js, Express.js, MongoDB, JWT, REST API

- Built a full-stack social media platform with RESTful APIs, JWT/Bcrypt authentication, and rolebasedprotected routes.
- Developed a responsive React 19 + Tailwind CSS component-based UI with Axios for async datafetching and state management.
- Designed MongoDB schemas using Mongoose ODM for follow/unfollow logic; optimized queries formobile performance.

Threads Clone – Full-Stack Social

MERN Stack, Context API, Tailwind CSS

- Developed a full-stack responsive social media app with real-time user interactions using MERNstack.
- Implemented dynamic thread management, interactive liking system, nested commenting, and useContext API for state management.
- Styled with a modern glassmorphic UI using Tailwind CSS following mobile-first responsive designprinciples.

Netflix Clone

MongoDB, Express.js, React.js, Node.js, Firebase Auth

- Built a full-stack Netflix-style clone with trailer playback, secure login/signup using FirebaseAuthentication.
- Integrated Firebase for user data management and persistent session handling.
- Delivered a fully responsive, mobile-first UI with component-based React architecture.

Calendar Event Management System

React.js, Node.js, Express.js, MongoDB, JWT, REST API • Built a

full-stack MERN calendar app for event and schedule management with complete CRUDoperations.

- Implemented JWT authentication with persistent login using LocalStorage and secure protected APIroutes.
- Developed REST APIs following MVC architecture with a responsive React UI for smooth navigation.

Online Food Order & Recipes Website

HTML5, CSS3, JavaScript (ES6+)

- Built a responsive food ordering and recipe website with interactive UI using vanilla JavaScript(ES6+).
- Features include recipe browsing, menu viewing, and order placement with smooth DOMmanipulation.
